Shareholder Activism

ShareAction»

Investment decisions made today build the world of tomorrow. Right now those decisions are harming our planet and its people.

Global emissions continue to rise, our natural world is in decline, and the divide between rich and poor is widening.

ShareAction»

It has never been more important for investors to use their shareholder power to hold companies to account - and to use the money at their disposal responsibly.

ShareAction's approach

- Building a movement
- Unlocking the power of investors
- Reforming the rules

The impact of engagement

Climate Change

Corporate Governance

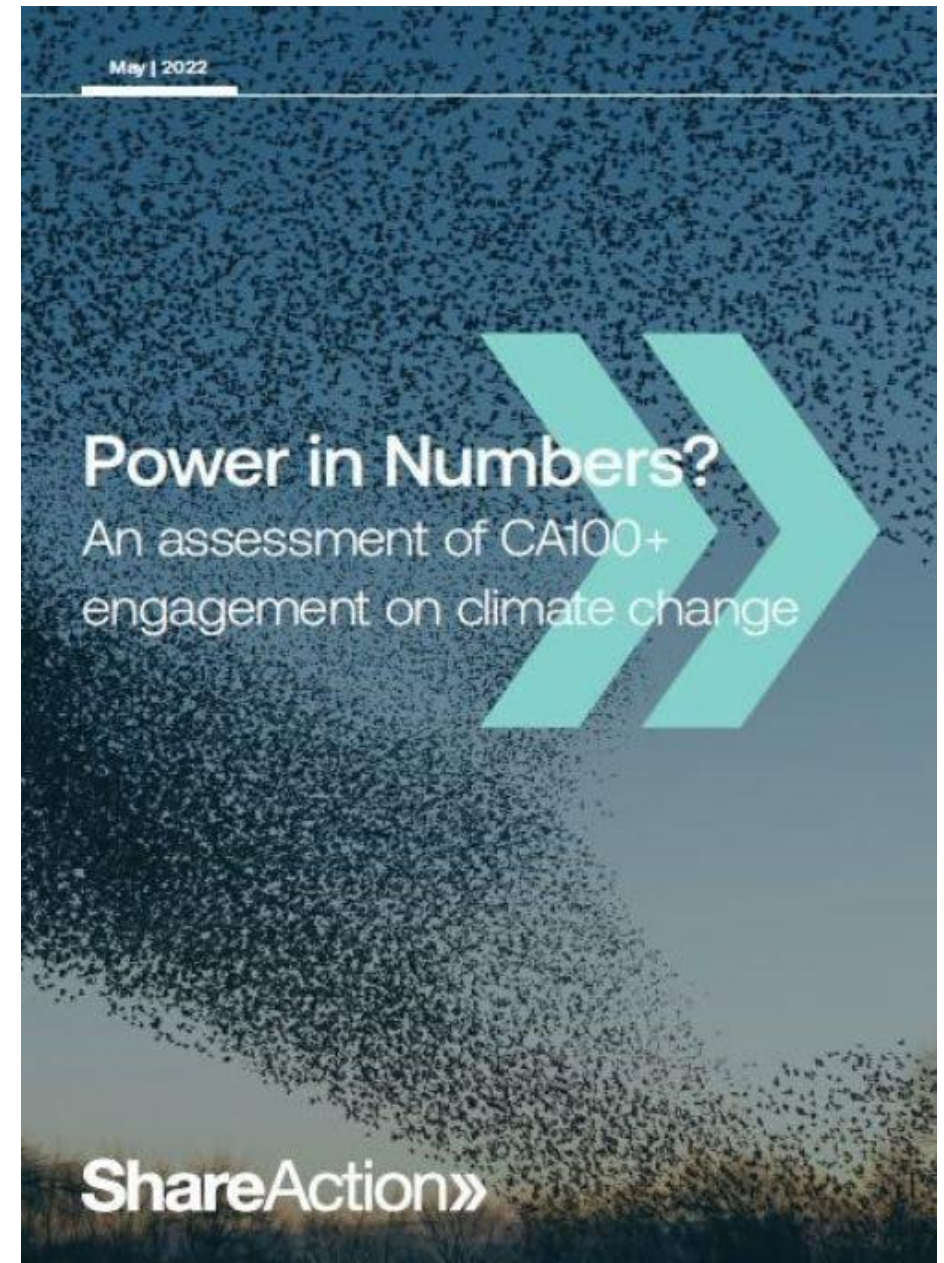

Credit Suisse faces investor call for more climate transparency

By Brenna Hughes Neghaiwi

An assessment of current engagement practices

Climate engagement strategies are often inadequately articulated

There is generally little transparency around insurers' and their managers' engagement escalation strategies and implementation

The world's largest asset managers continue to block efforts to make progress on environmental and social issues.

Towards (more)
meaningful investor
engagement

Towards (more) meaningful investor engagement

- Awareness
- Higher industry standards
- Improved regulation

Thank you!
